HOW IT WORKS

1. You are assigned a flower store line in our system, containing popular sympathy arrangements.

2. Your admin access allows you to review and set your own prices, change your product line, and set your store hours so the system cuts off ordering when you are no longer able to fill pieces.

3. When orders are placed at the funeral home website, the order will be transmitted to you by one or more of the following: email, fax, SMS text message, and voice telephone notification.

4. You can check orders, manage products, view payment statements, and change your notification preferences at any time by logging on to our system.

PAYMENTS

• Payment is remitted for a given month’s orders at the end of that month. Payment can be supplied by paper check or ACH directly to your bank account.

• You receive 100% of the price that you set in the system.

• You receive 100% of the delivery fee that you set in the system.

• We collect and remit sales taxes and pay all credit card fees.

• Our system sets the retail price of each item, based on our sales margin and the price that you set for your products.

• We aim to offer free delivery to the funeral home, as this increases order volume. You can increase your product prices to offset this, as needed. Your delivery fee is automatically collected for orders to be sent to locations other than the funeral home (such as a church, home or office location).

Go to cfsorders.com to manage your store line

FAQ’S

How much should I charge for my pieces?
The stock line is populated with default pricing calculated based on regional rates. We strongly encourage you to adjust your pricing in the portal to ensure that you receive enough to create each piece. You will keep the full amount of the price you set online, with our commission added on top of your set price on the funeral home website.

What if I don’t have the same flowers in stock?
Similar substitutions are allowed in order to maintain the style of the arrangement. The exact recipes are not required to be followed, but each arrangement should be visually similar. Matching color and value is more important than using the exact flowers listed in this book. If you need to decline an order, please contact us as soon as possible.

Do I have to sell all of the pieces in the CFS Sympathy Line?
No. The sympathy line can be fully customized and changed in the portal. You are welcome to suspend or delete products and add your own pieces.

Can I use these photos on my own website?
These images are only for use in the CFS portal and are only available to florists who have joined the CFS program.

What if I need to close my store for a holiday or vacation?
If you need to stop receiving orders for any period of time, please contact us. We can temporarily pause your storeline and send orders to another filling florist.

If you have any other questions, please do not hesitate to contact us.

Call Us at 888-881-6131
